

Compliance with ICS2 regulation

Objective

The Import Control System (ICS2) is a security program established by the European Union (EU), which involves the early review of goods information destined for or transiting through EU member countries, to identify potential threats at an early stage.

Link

It is mandatory for all shipments in transit and/or with final destination in any of the European Union member countries*.

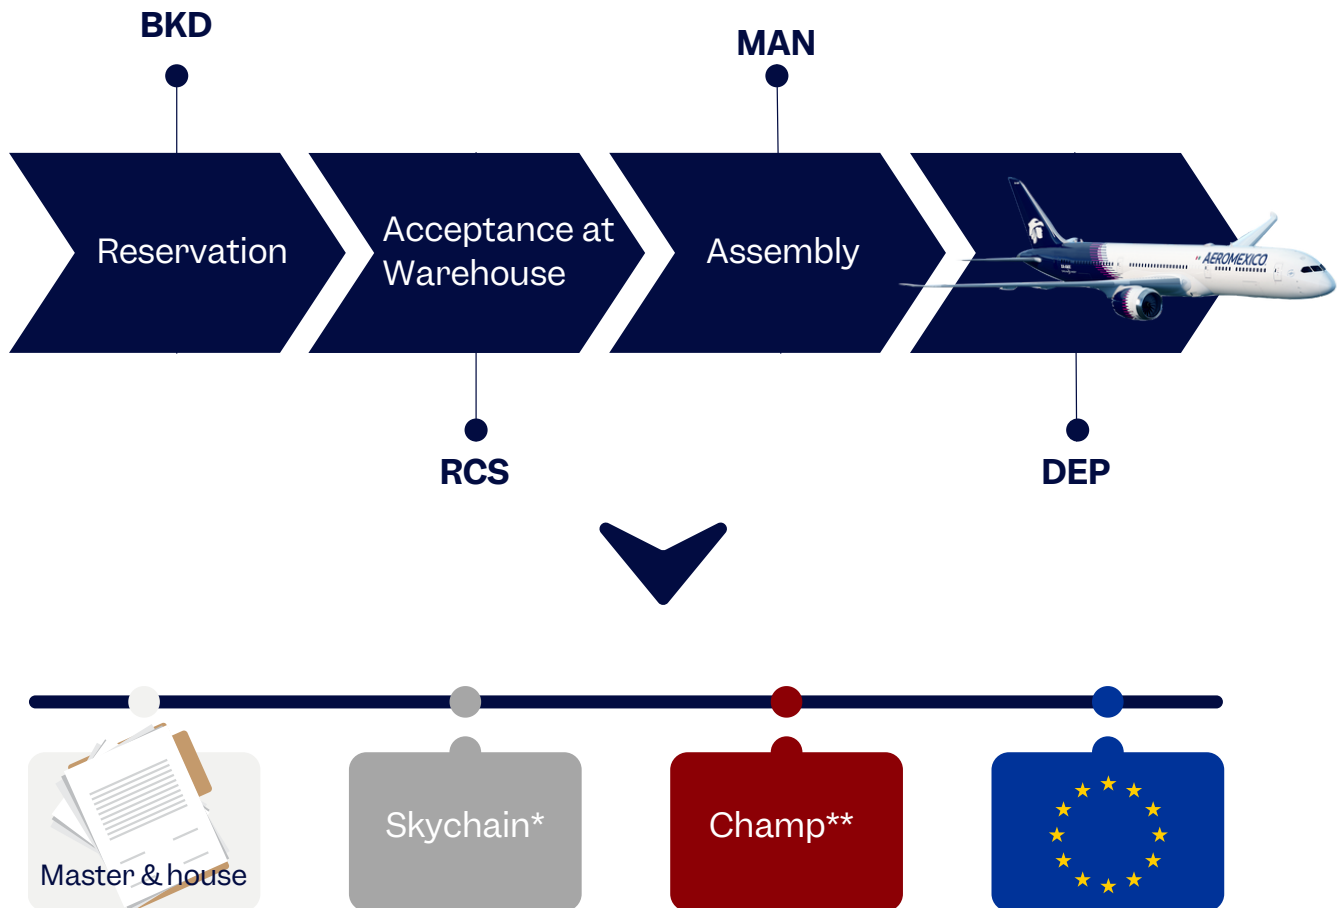

Validity

ICS2 became effective on March 1st; however, some airlines have been granted an extension. Aeroméxico began its compliance starting June 8th, 2023.

* Great Britain is not part of the EU.

The transmission of the message is made when the shipment information is completed at the airport of origin.

*Aeroméxico Cargo Handling System

**Platform for communication with customs

The cargo **CANNOT** be dispatched until a positive confirmation is received from EU Customs.

The following data is essential to comply with the regulation

• Shipper

Full Name

Address

(street and number, city/province, country)

• Consignee

Full Name

Address (street and number, city/province, country)

EORI Code*

• Weight and Pieces

• Para cada tipo de mercancía:

Full Description

HS Code**

* EORI: Economic Operator Registration and Identification number granted by the EU to the Consignee.

** HS: Harmonized System Code, a 6-digit classification code for goods recognized by customs worldwide. Known as HCC in Skychain.

Master ó House

If it is a single shipment, the information must be reflected in the MAWB (with the possibility of including up to 9 different merchandise classifications).

For consolidated shipments, the information is required for each House Air Waybill (HAWB), with the possibility of up to 9 merchandise classifications per HAWB.

Starting June 8th,
Aeroméxico will not accept
shipments destined
for or in transit to the European Union
that do not have this information.

It is the responsibility of Aeroméxico (carrier) to transmit the messages to European Union customs. Freight Forwarders (FF) must provide the information to Aeroméxico using two alternatives:

- a) In printed form on the MAWB and HAWB documents.
- b) Mediante Guía electrónica. Los FF que hagan uso de guía electrónica* deberán enviar sus mensajes a la dirección SITA: CHAMPAM

HTS/123456/223456

Code **HS**

Even if the Freight Forwarder (FF) performs an early transmission, Aeroméxico will transmit the information to EU customs once the Cargo Acceptance process is completed at the origin warehouse.

* For the use of electronic waybills, the Freight Forwarder (FF) must first complete their registration with Aeroméxico.

Examples of Master and House waybills that must be provided at the time of cargo acceptance at the origin airport:
